You can purchase these parts from this approved dealer:

CON-TROL-CURE®, Inc. is pleased to announce that it now offers microwave replacement parts for the UV curing systems manufactured by Fusion UV Systems, Inc.®. The extensive list of parts includes **bulbs**, **screens**, **reflectors** and **magnetrons**, together with a comprehensive selection of other microwave parts.

Spare parts are available for all models. All parts have been precisely engineered and thoroughly tested to provide a level of quality, fit and performance equal to or better than other parts currently available. For example, our magnetrons have been designed with a larger cooling surface area for longer and more consistent operation.

With its comprehensive inventory, CON-TROL-CURE®, Inc. has positioned itself as the UV curing industry's full stocking, alternate source of supply for replacement microwave spare parts, all designed and manufactured to meet or exceed standard specifications.

Benefits of CON-TROL-CURE® microwave spare parts program:

- A comprehensive selection of those parts that require replacement
- Designed and manufactured to the highest standards
- Field tested to ensure quality and performance
- Delivery from stock with blanket orders accepted

Magnetrons

Screens
